A NOTE FROM THE CLUSTERS

Ms. Kristen, Ms. Ellie, Mr. Spector & Mr. Ronny

We are thrilled to welcome you and your child to our school's cluster subjects program! In this introductory newsletter, we would like to provide you with an overview of the exciting subjects your child will be exploring this year: Physical Education, Art, and Theater.

We believe that cluster subjects play a vital role in your child's holistic development. By engaging in physical education, art, and theater, your child will not only acquire new skills but also develop important social, emotional, and cognitive abilities.

Throughout the year, we will keep you informed about the exciting projects, performances, and events happening in these subjects. We encourage you to actively participate and support your child's learning journey in these areas.

If you have any questions or would like to get involved in our cluster subjects program, please don't hesitate to reach out to us. We are here to support your child's growth and success. Thank you for your partnership, and we look forward to an enriching year ahead!

WHAT DO WE TEACH?

ART

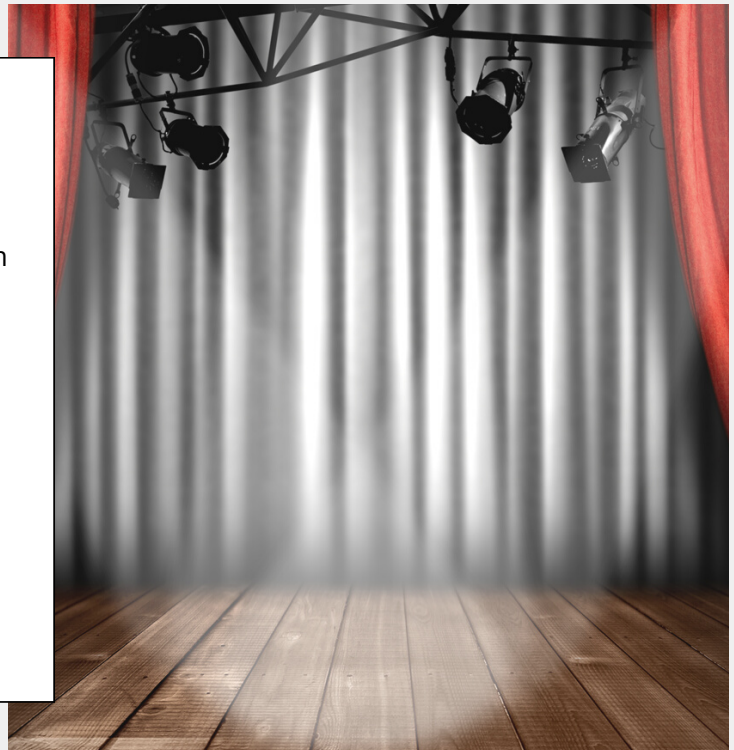

Ms. Ellie

In our Art program, your child will have the chance to unleash their creativity and explore various art forms. From painting and drawing to sculpture and mixed media, our art curriculum encourages self-expression, imagination, and critical thinking. Through hands-on projects and exposure to different artistic styles, your child will develop their artistic skills and gain a deeper appreciation for the world of art.

THEATER

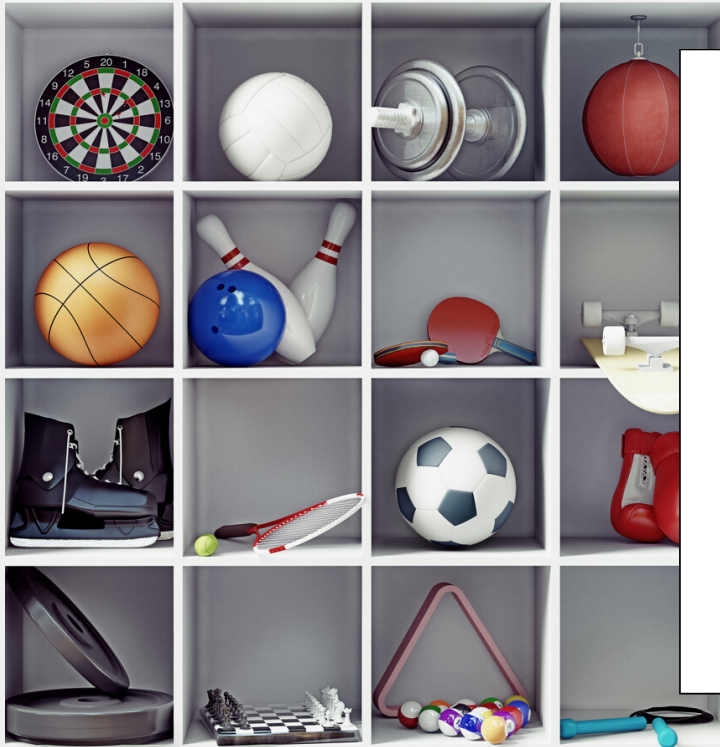

Mr. Spector

Our Theater program provides a platform for your child to develop confidence, communication skills, and creativity. Through acting, improvisation, and stagecraft, your child will have the opportunity to express themselves, collaborate with peers, and explore the world of storytelling. Our theater program not only nurtures their performance abilities but also enhances their public speaking skills and self-confidence.
